

THE PROMISED LAND

A Revelation of Christ and the Gospel

The typology and shadowed imagery in the Old Testament narrative are clearly revealed in the substance and reality disclosed in the Gospels and Epistles of the New. The Promised Land is of particular relevance in that cosmology for it is a revelation of the Pre-eminent One, The Lord Jesus Christ.

In these pages will come forth an identified portrayal of Christ in the imagery of the Land promised to Abraham, Isaac and Jacob, and inherited by Israel under the command of Joshua and fully completed under King David.

We will go on a journey from the crossing of the Jordan to the subjugation of the Jebusites at Mount Zion and the full establishment of the Kingdom under David and Solomon. Christ revealed will be our touchstone as we explore the Land of Promise from the Jordan River to the Sea, from the Mountains of the North to the Negev. From Cities to Landmarks, Mountains, Valleys, Lakes and Streams; all in mysterious majesty showing forth the glory of Christ Jesus, our Lord.

May we have eyes to see the glory of our God and King. May our spirits perceive and know Christ more fully through these pre-ordained types and shadows of Him Who is our one desire. To see more clearly, to love more dearly and to know more intimately—The One, the Son.

Holy Spirit we pray, guide us into all Truth, glorify Jesus anew, and help us obtain to the realm of spiritual understanding to which only You can bring us. Direct, guide, enable, and assist us as we take our journey through the Promised Land. We would see Jesus.
